| 00315 | Aurora Energy Limited                 | 00315.082 | UFD – Urban form and development | General | Amend | <p>Amend as follows:</p> <p>For provisions UFD – M1; UFD – M2; UFD – E1; UFD – PR1; UFD – AER2; UFD – AER3; UFD – AER4; UFD – AER7; UFD – AER8; give effect to UFD – Urban form and development related submissions (referenced in the full submission document as ‘the above relief’); with respect to:</p> <ul style="list-style-type: none"> <li>• Methods: UFD – M1; UFD – M2 to provide setbacks from urban form and development from electricity sub – transmission infrastructure and significant electricity distribution infrastructure.</li> <li>• Explanation: UFD – E1</li> <li>• Principal reasons: UFD – PR1</li> <li>• Anticipated environment results; UFD – AER2; UFD – AER3; UFD – AER4; UFD – AER7; UFD – AER8</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 00302 | Central Otago Winegrowers Association | 00302.003 | UFD – Urban form and development | General | Amend | <p>Amend as follows:</p> <p>A compelling requirement for engagement with primary industry, landowners, representative associations and related parties should form part of the overriding context of the pORPS</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 00137 | Director-General of Conservation      | 00137.150 | UFD – Urban form and development | General | Amend | Retain as notified, except where specific amendments are sought below.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 00139 | Dunedin City Council                  | 00139.249 | UFD – Urban form and development | General | Amend | <p>Amend as follows:</p> <ol style="list-style-type: none"> <li>1. Remove any duplication/paraphrasing of NPS – UD provisions where this does not add value;</li> <li>2. Avoid reopening of matters that have been recently resolved in the current partially operative RPS 2019 unless necessary to achieve other items in this list;</li> <li>3. Ensure that regional direction aligns and does not conflict with the direction on urban form and development within the recently developed and settled strategic directions that are included in the Dunedin City second generation District Plan (2GP).</li> </ol> <p>Ensure that housing and business land capacity requirements for all medium or high growth areas can be met effectively under the RPS, including by providing for enough feasible development options and by effectively and efficiently facilitating any public or critical infrastructure or services necessary to support growth to operate, develop or expand. Provide clear guidance on how to reconcile any tensions between achieving the above objective with other regional objectives for example around highly productive land, management of natural hazards risk, or landscape protection.</p> |

|       |                                  |           |                                  |         |       |                                                                                                                                                                                                                                                                                                                                                                         |
|-------|----------------------------------|-----------|----------------------------------|---------|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 00239 | Federated Farmers of New Zealand | 00239.172 | UFD – Urban form and development | General | Amend | Review the appropriateness of combining rural matters with a chapter specifically about urban form and development                                                                                                                                                                                                                                                      |
| 00226 | Kāi Tahu ki Otago / Aukaha       | 00226.306 | UFD – Urban form and development | General | Amend | Amend the UFD objectives, policies, and methods to reflect the management approach to stormwater and wastewater set out in LF – FW – P15.                                                                                                                                                                                                                               |
| 00211 | LAC Properties Trustees Limited  | 00211.046 | UFD – Urban form and development | General | Amend | Ensure that all provisions give effect to the NPS UD 2020 and the Government's Urban Growth Agenda. In particular providing for responsive planning decisions over time, and ensuring that 'at least' development capacity is enabled                                                                                                                                   |
| 00211 | LAC Properties Trustees Limited  | 00211.047 | UFD – Urban form and development | General | Amend | remove restrictions around infrastructure being ready, or planned, or funded, prior to progressing development. This unnecessarily restricts housing developments which could otherwise get underway with consented certainty on the basis of staged or private infrastructure                                                                                          |
| 00211 | LAC Properties Trustees Limited  | 00211.048 | UFD – Urban form and development | General | Amend | remove all provisions relating to rural residential and rural lifestyle development within the urban growth objectives. These are not urban developments, and need not be controlled beyond other RPS policies relevant to regionally significant resources (such as significant soils, or highly valued landscapes).                                                   |
| 00211 | LAC Properties Trustees Limited  | 00211.049 | UFD – Urban form and development | General | Amend | remove all protections of development on rural land generally, as this is not a regionally significant matter per se (beyond significant soils and section 7 landscapes) requiring protection. This is also contrary to the NPS – UD which encourages greenfield developments                                                                                           |
| 00211 | LAC Properties Trustees Limited  | 00211.050 | UFD – Urban form and development | General | Amend | remove all references to amenity values, rural character and reverse sensitivity. The inclusion of these is contrary to proposed replacement legislation in that 'amenity values' and rural character are matters which have supported litigation to stymie necessary growth and development opportunities.                                                             |
| 00211 | LAC Properties Trustees Limited  | 00211.051 | UFD – Urban form and development | General | Amend | Ensure sufficient flexibility is retained in the provisions to support varied opportunities to create quality urban environments, including the ability for plan changes and consents to be progressed that might be beyond an urban growth limit or other district level policies, but is nevertheless consistent with achieving positive social and economic outcomes |
| 00211 | LAC Properties Trustees Limited  | 00211.052 | UFD – Urban form and development | General | Amend | Allow for the ability to challenge and proffer alternative dwelling capacity assessments to support needs for rezoning, rather than assuming Council held records are correct and up to date.                                                                                                                                                                           |
| 00211 | LAC Properties Trustees Limited  | 00211.053 | UFD – Urban form and development | General | Amend | the methods are currently drafted as policies and these should either be changed as such, and reflect the above requested amendments, or otherwise be removed                                                                                                                                                                                                           |
| 00210 | Lane Hocking                     | 00210.046 | UFD – Urban form and development | General | Amend | Ensure that all provisions give effect to the NPS UD 2020 and the Government's Urban Growth Agenda. In particular providing for responsive planning decisions over time, and ensuring that 'at least' development capacity is enabled                                                                                                                                   |
| 00210 | Lane Hocking                     | 00210.047 | UFD – Urban form and development | General | Amend | remove restrictions around infrastructure being ready, or planned, or funded, prior to progressing development. This unnecessarily restricts housing developments which could otherwise get underway with consented certainty on the basis of staged or private infrastructure                                                                                          |
| 00210 | Lane Hocking                     | 00210.048 | UFD – Urban form and development | General | Amend | remove all provisions relating to rural residential and rural lifestyle development within the urban growth objectives. These are not urban developments, and need not be controlled beyond other RPS policies relevant to regionally significant resources (such as significant soils, or highly valued landscapes).                                                   |

| 00118 | Maryhill Limited    | 00118.066 | UFD – Urban form and development | General | Amend | <p>Amend or delete all urban growth provisions</p> <p>Ensure that all provisions give effect to the NPS UD 2020 and the Government's Urban Growth Agenda. In particular providing for responsive planning decisions over time, and ensuring that 'at least' development capacity is enabled</p> <p>Remove restrictions around infrastructure being ready, or planned, or funded, prior to progressing development. This unnecessarily restricts housing developments which could otherwise get underway with consented certainty on the basis of staged or private infrastructure</p> <p>Remove all provisions relating to rural residential and rural lifestyle development within the urban growth objectives. These are not urban developments, and need not be controlled beyond other RPS policies relevant to regionally significant resources (such as significant soils, or highly valued landscapes).</p> <p>Remove all protections of development on rural land generally, as this is not a regionally significant matter per se (beyond significant soils and section 7 landscapes) requiring protection. This is also contrary to the NPS – UD which encourages greenfield developments</p> <p>Remove all references to amenity values, rural character and reverse sensitivity. The inclusion of these is contrary to proposed replacement legislation in that 'amenity values' and rural character are matters which have supported litigation to stymie necessary growth and development opportunities.</p> <p>Ensure sufficient flexibility is retained in the provisions to support varied opportunities to create quality urban environments, including the ability for plan changes and consents to be progressed that might be beyond an urban growth limit or other district level policies, but is nevertheless consistent with achieving positive social and economic outcomes</p> <p>Allow for the ability to challenge and proffer alternative dwelling capacity assessments to support needs for rezoning, rather than assuming Council held records are correct and up to date.</p> |

| 00226 | Kāi Tahu ki Otago / Aukaha             | 00226.318 | UFD – Urban form and development | UFD – P7 | Amend | Amend to clarify the meaning and coverage of clause 1.<br><br>Amend clause 3 to replace use of “primary production”, in relation to use of highly productive land, with reference to outdoor agricultural, pastoral and horticultural production or a defined term that clearly excludes mining, quarrying, forestry and production of commodities within buildings.<br><br>Amend as follows:<br><u>(6) provides for the use of rural areas by Kāi Tahu in accordance with MW – P4 and UFD – P9,</u><br><br>(7)(6) restricts the establishment of residential activities, sensitive activities, and non – rural businesses <u>not covered by (6)</u> which could adversely affect, including by way of reverse sensitivity, the productive capacity of highly productive land, primary production and rural industry activities, and<br><br>(8)(7) otherwise limits the establishment of residential activities, sensitive activities, and non – rural businesses <u>not covered by (6)</u> to those that can demonstrate an operational need to be located in rural areas.<br><br>the following amendments are needed:<br><br>1. As raised elsewhere, clause 1 needs clarification in terms of coverage and language.<br><br>2. The term “primary production” is defined in the National Planning Standards to include a range of activities that do not rely on highly productive land, including mining, quarrying, forestry, and production of commodities within buildings. It would be inappropriate for the PORPS to provide for these activities on highly productive land. |

| 00139 | Dunedin City Council              | 00139.269 | UFD – Urban form and development | UFD – PR1  | Amend   | <p>Make all amendment necessary to align with the DCC submission on the rest of this sections.</p> <p>Amend so this section gives greater recognition to relative roles and responsibilities for growth planning being between territorial authorities and regional councils.</p> <p>Make note that territorial authorities are the primary entity responsible for many aspects of growth management and the importance of district plan setting strategic directions for growth and urban form.</p> <p>Note that management of most land use and development consents and responsibility for delivery of most infrastructure lies with territorial authorities but also note the important role the ORC plays in being a provider of public transport services, hazards mitigation, and the overlay with issues managed at the regional level particularly in terms of freshwater outcomes and air quality.</p> <p>Discuss how the NPS – UD sets out requirements for regional councils to be part of the urban growth planning and how the RPS content reflects that and the need to manage any regionally significant issues (and what those are) and how that is reflected in the content of the RPS.</p> |
| 00239 | Federated Farmers of New Zealand  | 00239.179 | UFD – Urban form and development | UFD – PR1  | Amend   | Delete reference to use and development within rural areas throughout UFD – PR1.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 00236 | Horticulture New Zealand          | 00236.106 | UFD – Urban form and development | UFD – PR1  | Amend   | <p>Move Para 6 to the new chapter for the rural area and amend as follows:</p> <p><del>“Rural areas are attractive as residential livings areas and for other non – rural activities.</del></p> <p><u>The rural areas are important to Otago for the primary production activities that are undertaken within those areas. There is pressure from non – rural activities, such as residential living and lifestyle to locate within the rural area. However, such activities can adversely affect rural production and are incompatible with primary production activities.”</u></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 00239 | Federated Farmers of New Zealand | 00239.182 | EMON – Monitoring the efficiency and effectiveness of the policy statement | Existing monitoring procedure | Amend   | <p>Amend as follows:<br/> “ORC has policies and procedures in place to gather information and to monitor <del>and report on how well Otago’s natural and physical resources are managed to carry out effectively its function under the Act.</del> These include:<br/> (a) State of the Environment reporting,<br/> (b) <u>the efficiency and effectiveness of policies or other methods in the policy statement,</u><br/> (c) <u>the exercise of any functions, powers or duties delegated or transferred</u><br/> (d) <u>resource consents that have effect in the region monitoring,</u><br/> (e) <u>the efficiency and effectiveness of the processes used in exercising its powers or performing its functions or duties (including those delegated or transferred by it), including matters such as timeliness, cost, and the overall satisfaction of those persons or bodies in respect of whom the powers, functions, or duties are exercised or performed,</u> and annual reporting against objectives in the Council’s Long-term Plan.</p> <p>...</p> <p>The <u>RMA 1991 ORPS</u> is relevant to all decision making in <u>the ORPS</u>, <del>under the RMA 1991</del> and must be given effect through regional and district plans. As the ORPS is given effect through regional and district plans, much of the data needed for monitoring will be gathered for the purpose of, or will be relevant to, the monitoring of regional and district plans. <u>Information kept or maintained will not be used except for the purpose of the Act.</u> ORC will undertake a work programme to identify data the territorial authorities collect in the course of their normal monitoring regimes and make arrangements for collection and sharing of data, including information that the regional council collects that may be of benefit to territorial authorities.</p> <p>...</p> <p>The ORPS needs to reflect the <u>resource management issues of significance to iwi authorities in the region needs and aspirations of tangata whenua</u> and the wider community, so tangata whenua and stakeholders will be encouraged to be involved with monitoring the provisions of the ORPS.</p> |
| 00239 | Federated Farmers of New Zealand | 00239.183 | EMON – Regional Monitoring Strategy                                        |                               | Amend   | <p>Amend as follows:<br/> “The RMS will assist ORC with expanding its monitoring activities to respond to ORPS provisions and ensure the things measured accurately reflect policy success, including <u>environmental natural</u>, social, economic, cultural and historic heritage values. It will increase transparency by stating what is monitored and why.<br/> This goes hand in hand with increasing the ORC’s leadership and facilitation role in several areas, including climate change.”</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| 00123            | Heritage New Zealand Pouhere Taonga                       | 00123.009                           | APPX – Appendices | New – provision    | Amend    | <p><b>Include</b> the following as a new appendix:</p> <p><b><u>Schedule X Archaeological Requirements</u></b></p> <p>This Schedule sets out information to alert the public to their responsibilities regarding archaeological sites. This is relevant with regard to:</p> <ol style="list-style-type: none"> <li>(1) Demolition / destruction of any structure associated with human activity prior to 1900, whether or not it is scheduled in a district or regional plan.</li> <li>(2) Earthworks or other works that may disturb pre – 1900 surface or sub – surface archaeological sites or material.</li> </ol> <p>An archaeological site is as defined by the Heritage New Zealand Pouhere Taonga Act 2014 as being:</p> <ol style="list-style-type: none"> <li>a) any place in New Zealand, including any building or structure (or part of a building or structure), that: <ol style="list-style-type: none"> <li>i) was associated with human activity that occurred before 1900 or is the site of the wreck of any vessel where the wreck occurred before 1900; and</li> <li>ii) provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand</li> </ol> </li> </ol> <p>It is also possible for Heritage New Zealand Pouhere Taonga (Heritage New Zealand) to declare a post – 1900 site as an archaeological site.</p> <p>Consent required from Heritage New Zealand<br/>An authority (consent) from Heritage New Zealand must be obtained prior to the commencement of works noted in (1) or (2) above, and preferably before submitting any resource consent application. It is an offence to modify or destroy an archaeological site, or demolish / destroy a whole building, without an authority if the person knew or ought to reasonably suspect it to be an archaeological site. For further information, contact Heritage New Zealand. The relevant legislation is the Heritage New Zealand Pouhere Taonga Act 2014, in particular sections 42 and 44 of that Act.</p> <p>Known or suspected archaeological sites<br/>The following resources may assist in determining if an archaeological site is or may be present:</p> <ul style="list-style-type: none"> <li>• Historic and cultural heritage scheduled in a district or regional plan.</li> <li>• Sites listed by the New Zealand Archaeological Association's Archaeological Site Recording Scheme (Latest information is on the NZAA website).</li> <li>• Council GIS information that highlights known sites and areas where there is a higher risk of unidentified historic heritage being encountered.</li> <li>• Written and oral histories of the area, including those of Tangata Whenua.</li> </ul> <p>Archaeological discovery without an authority (Protocol)<br/>If an authority has not first been obtained, and an archaeological site is subsequently discovered, the following protocol must be followed:</p> |
