

Submission Form 16 to the Otago Regional Council on consent applications

This is a Submission on (a) limited notified/publicly notified resource consent application/s pursuant to the Resource Management Act 1991.

Submitter Details: (please print clearly)

Full Name/s: "Pisa View Cherries" Jane Miscisco

Postal Address: [Redacted]

Phone number: Business: Private:

Mobile: [Redacted]

Email address: [Redacted]

I/we wish to SUPPORT/OPPOSE submit a NEUTRAL submission on (circle one) the application of:

Applicant's Name: Cromwell Certified Concrete Limited

And/or Organisation:

Application Number: RM20.360.01 - 04

Location: Cromwell, approximately 400 metres south southeast of the intersection of Luggate-Cromwell Road (State Highway 6) and Mt Pisa Road

Purpose: Various consents relating to gravel washing

The specific parts of the application/s that my submission relates to are: (Give details)

- 1, drinking water from Amisfield Estate Society Inc.
2, self regulation
3, no extra traffic
4 dust and 5, noise I have a 14 hectare cherry block with 10 hectares under net.

My/Our submission is (include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views).

I oppose the application because
1, we receive our drinking water from the Amisfield Estate Society Inc. therefore we support there submission

2, After reviewing the documents I have concerns over whether the Quarry self regulates

3, I have school aged children that get on the school bus at the gate. The road is extremely busy at the moment without adding more heavy trucks. I am nervous during the picking season when I have workers and produce exiting and entering the property

4) The dust produced. I am busy working on the orchard and have already had to employ a cleaning company to clean my windows to prevent damage.

I was at a recent meeting that explained the toxicity of the dust produced by the ~~dust~~ quarry which gives me concern for the health and safety of my self, my children and my staff, to such an extent I will have to address this in my health and safety procedures.

There is also the question of the damage the dust is doing to my trees, the cherries that are exported and eaten locally and my buildings and plant.

5, The noise will be an issue with the extended hours from the quarry itself and the extra vehicles on the road.

I/We seek the following decision from the consent authority (give precise details, including the general nature of any conditions sought)

To address these concerns I would like more robust conditions of the consent be imposed as the Amisfield Society's application has stated more monitoring of the dust produced and it be independent monitoring and the decline of the extra hours with a ban on trucks leaving the quarry while school buses are on the roads in this area 8-8:30 am and 3:30 to 4 pm
