(Date)

stream most days during summer. Our kids love going to the beach with their friends - if there are hazardous substances leaking into the water from Smooth Hill we wouldn't be able to do this safely. That would just be heart breaking at the centre of our community!

We often walk our dog with the family and go on bike rides around the forestry, as well as having friends who live up Big Stone Road - so if a fire did break out it would be catastrophic! There is no fire management plan & we have read so many reports of heightened fire risk at landfills due to trapped gases and disposal of hazardous items such as batteries. No good!

While this may not happen immediately, it's still a concern for future generations. I don't want our children to have to clean up this mess either.

Many thanks
Di Hamilton
