Ves the animals anothers about theorea. Yes the animals anothers, and wildlife will be effected greatly due to the waste/rubbish, toxic fumes, loxic chemicals, and the setting. Animals will be affected greatly, their homes will be pullated, they will be origin by publish and toxic waste. The beautiful wetlands people have tried so hard to preserve and bring back to an amio ment which is rarely found for native endangered species, such as birds and more. It will also affect people, living in the actual area. The smell and fumes is somethined the residents would have to put up with on a regular basis. And to want to place a landfill in the area of Big stone Road in Brighton? It's an image painted showing huge problems to this idea. Landfills in general are not eco-friendly, and are extremly unsustainable. Finding new ways could lead to better results for the plext generations. We ask sincerely that you decide to NOT place. This landfill in Big Stone Rock. It will change and effect creating.	You hear people saying it will effect the wildlife, and people.
Animals will be affected greatly, their homes will be pullated, they will be overing by nubbish and toxic waste. The beautiful wetlands people have tried so hard to preserve and bring back to an amiro ment which is rarely found for native endangered species, such as birds, and more. It will also affect people, living in the actual area. The smell and furnes is something the residents would have to put up with on a regular basis. And to want to place a landfill in the area of Big strong huge problems to this idea. Landfills in general are not eco-friendly, and are extremly unsustainable. Finding new ways could lead to better results for the place is landfill in the area of the place to show a form the place to be a sk sincerely that you decide to NOT place. This landfill is Big Stone Rock.
