GREAT IDEAS

Mum  's
you.

DOODLES

Hello, I'm Lexie I am 9 years old and attend Big Rock Primary School and am also a member at Brighton Pony Club. I have lived in Brighton for 6 years with my mum and younger sister

During the summer my friends and I spend our weekend swimming in the Otokia creek and going down the rocks into the water.

We enjoy the wildness of the unpolluted waters. In the winter we love doing nature walks and playing with our whānau

DATE | |

ACTION ITEMS

I have and still spend many days with my friends and whānau in Otokia creek and the waves.

The bodies of water mean home to me. I can't imagine growing up with polluted beaches, and not swimming in the beautiful crushing waves and seeing the beautiful ~~existing~~ seaweed going through our toes.

IDEAS

GREAT IDEAS

Having the landfill go ahead would mean I can't swim my ponies or with my sister safely in the creek.

DOODLES

Pause!
Stop!

Now please give time to think!
How would the bird survive?
How would the kai moana survive

GREAT IDEAS

DOODLES

How would you feel to have your children swim in known polluted waters?

Last but not least

Do you really want our future generations growing up in disgusting unspeakable waters?

We are suppose to be Aotearoa clean and green

If you see rubbish on the beach what would you do?

Please take care of Brighton Beach and not put a land fill here
