Applicant's Name: Peter Hall

And/or Organisation: Cold Gold Clutha Ltd

Application Number: RM22.434

Location: Upper Clutha River

The specific parts of the application/s that my submission relates to are: *(Give details)*

noise volume

hours of operation

My/Our submission is (include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views).

I strongly oppose this application. Many houses now line the banks of the Clutha river, they enjoy the peace & tranquility of the area, this is not the Upper Clutha area of yesteryear, times have changed. The noise & disruption that this mining operation will cause is unacceptable . Even at the limit of 55db the drone of this engine noise will be unsettling , it will take weeks (at best) to transverse any given part of the river. The river by our residence is quite deep & narrow & any noise on the river is amplified , while that is great for standard river & wildlife noise , this is a totally different deal.

Am also concerned about the fumes from such a large Diesel engine will produce . At times the air is very still & those fumes will hang in & around the river valley.

Also the hours of work that are proposed are unacceptable for any residents to endure. Noise control limitations should be upheld.

I/We seek the following decision from the consent authority (*give precise details, including the general nature of any conditions sought*)

_____ noise volumes are to be monitored constantly , (at applicants expense) & if exceeded operation is be ceased immediatly & bought back to agreed limits

_____ Hours of work should be bought inline with hours of Constrution work, as slayed out by the council . 7:30 am - 6pm

I/we:

-
- Not wish to be heard in support of our/my submission

If others make a similar submission, I/we will consider presenting a joint case with them at a hearing.
