

Submission Form 16 to the Otago Regional Council on consent applications

This is a Submission on (a) limited notified/publicly notified resource consent application/s pursuant to the Resource Management Act 1991.

Submitter Details:

(please print clearly)

Full Name/s: Jaylene Harper

Postal Address: [REDACTED]

Post Code: [REDACTED]

Phone number: Business: [REDACTED]

Private: [REDACTED]

Mobile: [REDACTED]

Email address: [REDACTED]

I/ we wish to **SUPPORT** / **OPPOSE** / submit a **NEUTRAL** submission on (circle one) the application of:

Applicant's Name: Cold Gold Clutha Limited

And/or Organisation: [REDACTED]

Application Number: RM22.434

Location: [REDACTED]

Purpose: Gold Dredge on the Clutha River- Otago.

The specific parts of the application/s that my submission relates to are: (Give details)

- Matter 1: The freshwater assessment conducted by e3Scientific only included macroinvertebrate sampling in three locations in the Central Otago district. There were no sampling sites within the Queenstown Lakes District, and the effects on ecological values in that reach of the Mata-au are unknown.
- Matter 2: The suitability of the freshwater assessment for the proposed dredging activity is questionable. The samples were taken from shallower edge habitats, while the dredging is proposed to occur at depths between 2m and 15m. It is uncertain whether the assessment is fit for purpose.
- Matter 3: While the identification of tributaries wider than 1m as exclusion zones is welcomed, it is suggested that this measure does not adequately support mana whenua values related to ecology and biodiversity. It is recommended that disturbance of the bed and sedimentation be avoided in the vicinity of all tributaries in the proposed activity area.
- Matter 7: The requirement for an ecological management plan prepared by a qualified freshwater ecologist to be included in the application and reviewed annually. It is suggested

that an ecological management plan could be prepared as a condition of consent rather than being part of the initial application.

- Matter 8: The concern about the presence of kanakana (lamprey) due to a lack of surveying. Recent research indicates that kanakana have been identified nesting under large boulders. More research into this is needed.

My submission is *(include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views)*.

I oppose the application based on the concerns raised regarding the freshwater assessment, the suitability of the assessment for the proposed dredging activity, the adequacy of measures to protect mana whenua values, the requirement for an ecological management plan, and the need for comprehensive surveying of kanakana (lamprey) presence. The proposed 'economic' benefits of this project do not come close to the environment damages that it will cause. It is time to think about our community, and our environment first and foremost, not the financial gain of very few that hold no connection to this area.

I seek the following decision from the consent authority *(give precise details, including the general nature of any conditions sought)*

Denial of the application based on the concerns raised regarding the freshwater assessment, the suitability of the assessment for the proposed dredging activity, the adequacy of measures to protect mana whenua values, the requirement for an ecological management plan, and the need for comprehensive surveying of kanakana (lamprey) presence.

I/we:

- Wish to be heard in support of our/my submission
- Not wish to be heard in support of our/my submission

If others make a similar submission, I/we will consider presenting a joint case with them at a hearing.

I, **am not** (choose one) directly affected by an effect as a result of the proposed activity in the application that:

- a) adversely affects the environment; and

I **do not** (choose one) wish to be involved in any pre-hearing meeting that may be held for this application.
