All of it.

My/Our submission is (include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views).

We have been and will remain regular visitors to the area, recreational sea fishing, river fishing and whitebaiting for 50 years.

We also have family and friends resident in the area.

We believe this is an innovative idea that serves both the applicants and the community in many positive ways and its great to see that a new life is being introduced to a facility that has lost its original purpose – to support a coastal commercial fishing industry that has declined in the past few years and not likely to return to the scale it once was.

Anything that can improve the appearance of the existing shabby surroundings, given the diminished commercial activity, would be only a positive improvement.

To enable people to enjoy these unique surroundings in reasonable comfort and to provide a safe and easy access to recreational water craft and rescue services, approval is surely an easy decision to make. At no cost to any council, government department or other community service and with no environmental issues other than any very minimal existing issues, and with the very obvious benefits to a very wide group of people, we are definitely supporting this venture.

We seek the following decision from the consent authority *(give precise details, including the general nature of any conditions sought)*

That the application be approved as is by the ORC
