### Port Otago Limited - Various consents to dredge Otago Harbour

To Be Heard	# of Submissions
No	82
Yes	113
<b>Total:</b>	<b>195</b>

Submitter No	Submitter	Add1	Add2	Add3	Add4	Add5	Add6	Submissions Summary	Received Date	To Be Heard	Status
1	Kati Huirapa Runaka ki Puketeraki	Suzanne Ellison	C/- Post Centre	Karitane 9471			9471	Concerns with the dredging of material from the foreshore, seabed and disposal of dredge material as have effects on cultural, spiritual, historic and traditional relationship within Otago Harbour.	13/08/2010	Yes	Opposed
2	Port Chalmers Fishermens Co-operative Soc.Ltd	P O Box 2	Port Chalmers 9050				9050	Oppose the dumping of material as has not considered the dump site area to commercial trawling local fishing boats and fishing grounds.	13/08/2010	Yes	Opposed
3	Alliance Group Ltd	PO Box 845	Invercargill					Supports proposal as additional shipping capacity is required to carry an expected increase in the volume of exports. Bigger ships have better economies of scale, and it would make the export trade md uncompetitive if big ships couldn't load at Port Chalmers.	09/08/2010	No	Support
4	City Forests Limited	Attn: G. Dodson	PO Box 210	Dunedin				Supports as Port Otago is only economically viable export port for majority of City Forests Limited products.	13/08/2010	Yes	Support
5	Te Runanga o Otakou Incorporated	c/- Nicola Murand	Tamatea Road	Otakou	RD 2	Dunedin	9077	Concerns with the dredging of material from the foreshore and seabed and proposed disposal of dredge material at disposal sites. Has cultural, spiritual, historic and traditional relationship with the Otago Harbour.	13/08/2010	Yes	Opposed
6	D J Wooffindin	35 Beach Street	St Clair	Dunedin				Concerned with dumping of spoil at Hayward Point, Spit beach and south Spit beach dump sites as it would have a detrimental effect on surf quality at Aramoana beach and eventually destroy the surf in that area.	13/08/2010	Yes	Opposed
7	R Hesson	PO Box 137	8 Hill Road	Warrington				Opposes all parts of application as risk of ecological damage and environmental impact on the natural	13/08/2010	No	Opposed

								resources.			
8	W Bretton	c/- Warrington Reserve Group	P O Box 137	Warrington	Otago			Concerns with Port Otago model for sediment dispersal and large volume of sediment and sand on coastline.	13/08/2010	Yes	Opposed
9	W M Faasega	64 Albert Street	St Clair	Dunedin 9012			9012	Concerned with the dumping of the dredgings at Taiaroa Heads/Aramoana. The dredgings have caused sand to be washed further up the coast. Wants sand dumped a further 50kms off shore.	19/07/2010	No	Opposed
10	K Farhi	"Te Ora"	Rapid No 28	Reynoldstown Road	RD 1	Port Chalmers		Concerned with negative impacts of the extension of the wharf (noise, light spill and views) on submitter's home environment and proposal will detrimentally affect the character of Careys Bay (decreased property values and loss of income for cafés and bars).	23/07/2010	Yes	Opposed
11	K Nicolau	12 Slant Street	Careys Bay	Otago 9023			9023	Concerned with noise of dredges, the dumping of spoil, DCC District Plan breaches, lighting, meeting Kyoto Pact, fishing jetty to become a berth or further reclamation, spawning locations, and devaluation of property.	26/07/2010	Yes	Opposed
12	J C Cecchi	30 Harbour Terrace	Careys Bay	Port Chalmers 9023			9023	Concerned with negatives effects on residents enjoyment and the nature of the Carey's Bay. community, the effect the container cranes will have on the view and outlook from Carey's and surrounds.	03/08/2010	Yes	Opposed
13	J Bretherton	20A Oxford Street	St Kilda	Dunedin 9012			9012	Concerned with the effect on the salt marsh adjacent to entrance of the harbour which is a bird habitat and needs specific protection.	03/08/2010	No	Opposed
14	J P Cecchi	30 Harbour Terrace	Careys Bay	Port Chalmers				Concerned with negative effects on residents enjoyment and the nature of the Careys Bay community, the effect the container cranes will have on the view and outlook from Careys and surrounds.	03/08/2010	Yes	Opposed

15	R H Dunn	20 Matariki Street	Broad Bay	Dunedin				Supports the project as it is an important development for Port Otago Limited, exporters and for economic growth, including more jobs in the region. Bigger ships should lower the carbon footprint overall.	06/08/2010	No	Support
16	R A C Wallace	58 Rocks Highway	Riverton					Concerned that not enough research has been done recording the outcome of dumping and the effects on the sea life of the local coast-lines north and south.	06/08/2010	No	Opposed
17	P H Young	46 Salisbury Road	Bradford	Dunedin				Concerned with the impact of sediment drift on fisheries in the area, including the threat to the ecosystem in general, and paua etc along the coastline. Wants dumping to be used to reclaim areas within the harbour.	09/08/2010	No	Opposed
18	P J S McGregor	P O Box 52036	Titahi Bay	Porirua 5242			5242	As a paua quota holder he is concerned that the dumping of material will be a threat to paua beds in the adjoining coastline.	09/08/2010	No	Opposed
19	A D Parker	20 Clyde Street	Roseneath	Dunedin 9023			9023	Concerned with dumping of dredgings and the sediment covering wild and re seeded paua in quota owned by submitter in Pau5d.	10/08/2010	No	Opposed
20	P M Reid	P O Box 22	Portobello	Dunedin				Otago Harbour is already a heavily modified environment through port activity and has been for over 130 years. The harbour is in excellent condition and conclude that the dredging and port expansion over the last 30 years has not been detrimental to habitats on or around the harbour. Believes that the environment will quickly recover from the project and the effects and impact will be minimal.	11/08/2010	Yes	Support
21	D G Kilpatrick	36 Tongatu Road	Ngunguru	RD 3	Whangarei 0173		0173	Concerned that surfing quality at Aramoana will be degraded and Murderers and Karitane could also be adversely affected if dumping additional dredging material at Aramoana and Heyward Point occurs.	11/08/2010	No	Opposed

								If a wave breaks on the spoil ground then there is less wave energy in the near shore surf zone which reduces surf frequency and quality. Also concerned about water turbidity and that dumping near shore			
22	J M Fisher	32 Coombe Hay Terrace	Careys Bay	Dunedin 9023			9023	Concerned with having to pay additional ORC rates to fund proposals at Port Chalmers, and the effect of noise, light and air pollution and the visual impact the extended wharf will have, together with concerns about her property being devalued. Concerned that 24/7 dredging will have a detrimental effect on health and well being of family and visiting friends.	11/08/2010	Yes	Opposed
23	O Williams	1/3 Parliament Street	Auckland 1010				1010	Concerned that proposal will affect the quality of waves along Dunedin's north coast.	11/08/2010	Yes	Opposed
24	J D Nicolau	21 Hare Road	Brighton	Dunedin 9035			9035	Same submission as Dylan Nicolau.	12/08/2010	No	Opposed
25	R J Nicolau	Brighton-Scroggs Hill Road	Dunedin 9035				9035	Same submission as Dylan Nicolau.	12/08/2010	No	Opposed
26	D Nicolau	160 Brighton-Scroggs Hill Road	Dunedin 9035				9035	Concerned that the cultural impact on Maori (Ngai Tahu) and their generations far outweigh the need for the project. Dumping of dredge spoil will cause death to all that live there, smothering benthic animals and causing loss of habitat. Concerned with adverse effects on marine animals, filter feeding organisms, and fauna by suspended sediment and turbidity	12/08/2010	No	Opposed
27	B Nicolau	7 Bath Street	Brighton	Dunedin 9035			9035	Concerned that shipping lanes disrupt breeding and fishing grounds. Vessels take on and discharge millions of litres of ballast water transporting pollution disease and invasive species around the world. Concerned that the cultural impact on	12/08/2010	No	Opposed

								Maori (Ngai Tahu) and their generations far outweigh the need for the project. Dumping of dredge spoil will cause death to all that live there, smothering benthic animals and causing loss of habitat.			
28	T A Baines	31 MacAndrew Road	Careys Bay	Dunedin 9023			9023	Concerned with noise from the container handling and the release of fine silt from dredging, decant water overflow and destructive blasting of hard bottom and reef areas. Believes sand build up at Warrington Beach is a secondary result of dumping by redirecting outfall from Blueskin Bay. Wants hearing panel to visit Careys Bay at various times day and night.	12/08/2010	Yes	Opposed
29	P M K Sales	Te Ora	R D 1	Port Chalmers 9081			9081	Opposes extension to multi purpose wharf but supports construction of a fisherman's wharf. Concerned with incremental erosion of residential and recreational amenity at Careys Bay.	12/08/2010	Yes	Opposed
30	P T Herbert	Flaxmill Bay	R D 1	Whitianga				Concerned with possible destruction of paua and kina in surrounding area.	12/08/2010	No	Opposed
31	R F De Lautour	18 Guilford Place	Chatsford	Mosgiel				Essential that the work covered by the applications be carried out in time for the introduction of the larger ships. If not it would be near disaster for Port Chalmers, damage the economy and well-being of Dunedin and Otago and result in high added costs to take cargo to Lyttelton.	12/08/2010	No	Support
32	L C Poulsen	30 Huia Street	St Leonards	Dunedin			9022	Opposes the dumping of dredge spoil out at sea and the impact on fish as would have adverse effect on commercial fishing business.	11/08/2010	No	Opposed
33	S M Stephenson	10 Harrington Street	Port Chalmers	Dunedin 9023			9023	Concerned with the dredging of the channel and dumping of sediment as have significant detrimental environmental and commercial costs. Also objects to the noise and lighting from extending wharf at Careys Bay.	12/08/2010	No	Opposed
34	S L Woods	18 Watson	PO Box	Warrington				Concerned with the dumping of	12/08/2010	No	Opposed

		Street	90					sediment off Taiaroa Head as will have ecological effects. Will reduce water clarity, destroys rock reef habitats, many kelp and kills key marine species.			
35	T Harris	33 Ely Street	Central Christchurch	Christchurch 8013			8013	Concerned with the disposal of material that may adversely affect the quality of the surf wave. In particular Heywards Point Aramoana and Shelley Beach.	12/08/2010	Yes	Opposed
36	N Shaw	33 Nelson Street	Forbury	Dunedin 9012			9012	Opposes applications as a concerned surfer in Otago as it will destroy the surfing access to Aramoana and also affect local surfing business.	11/08/2010	Yes	Opposed
37	P R Mahoney	26 Spencer Street	Andersons Bay	Dunedin 9013			9013	Concerned with the deepening of Otago Harbour as will effect the surf quality. Also believes a conflict of interest as Otago Regional Council shareholder of Port Otago Limited.	12/08/2010	Yes	Opposed
38	J W Foerster	18 William Street	Careys Bay	Port Chalmers				Opposed due to increased noise, loss of amenity and loss of special character and also likely to reduce property values.	13/08/2010	No	Opposed
39	R Mahoney	114 Highcliff Road	Dunedin				9013	Opposes as depositing of material outside the harbour will have a negative impact on surfing	13/08/2010	Yes	Opposed
40	J Hume	18 William Street	Careys Bay	Dunedin				Concerned with the increase in noise levels and light at night resulting in the degradation of the values of homes and community.	13/08/2010	No	Opposed
41	K L Greager	1 Aramoana Road	R D 2	Port Chalmers 9082			9082	Concerned with the negative environmental, social and cultural impact.	13/08/2010	Yes	Opposed
42	N Wilson	2 Aurora Terrace	Port Chalmers				9023	Concerned with increased noise and lighting levels, also concerned with the effect on cockle beds, sea bird feeding and the effect on Aramoana beaches.	13/08/2010	Yes	Opposed
43	S Jennings	c/- Maersk Line New Zealand	P O Box 90616	Auckland 1142			1142	Port Otago's plans for the deepening of the harbour channel and extension of the wharf will improve draft	12/08/2010	Yes	Support

								restrictions for large vessels, increasing their efficiency and service and will future proof the wharf. This means improved productivity, supply chain efficiency and reduced carbon footprint.			
44	N Bould	30 Grey Street	Port Chalmer s 9023				9023	Concerned with the effects of dumping the spoil on the surrounding beaches and the potential destruction of the sea floor habitat. Also concerned with increased noise levels.	13/08/2010	Yes	Opposed
45	H Mc Black	230 River Road	Claudlan ds	Hamilton 2010			2010	Concerned with the proposed disturbance, removal and deposition of the dredge material and its effects, including a) the effects on swell size and strength of the breaks and the blocking of swell windows, and b) the loss of economic benefits of surf in the north coast peninsula.	13/08/2010	Yes	Opposed
46	M Gunson	75 Monorgan Road	Strathmo re	Wellington 6022			6022	Concerned with the effect on surfing at Aramoana beach.	13/08/2010	No	Opposed
47	R Tan	c/- Tourism NZ	P O Box 95	Wellington 6011			6011	Deepening the channel and extending the multipurpose wharf will mean that larger container ships will be able to be worked on the outer multi-purpose wharf, leaving the inner wharf and Beach Street wharf free for cruise ships.	12/08/2010	No	Support
48	W G Lloyd	15 Scotia Street	Port Chalmer s 9023				9023	Supports all aspects of application.	13/08/2010	No	Support
49	P J Conway	13 Magnetic Street	Port Chalmer s 9023				9023	No comments given.	13/08/2010	No	Support
50	A R Richardson	65 Greenock Street	Kaikorai	Dunedin				Supports positive development for Dunedin.	13/08/2010	No	Support
51	T Leckie	36 Bellevue Place	Port Chalmer s	Dunedin 9023			9023	Concerned that it will affect the quality of surfing waves at Aramoana.	13/08/2010	No	Opposed
52	N D M	1 Aramoana	Careys	Dunedin			9082	Concerned with effects on the marine	13/08/2010	Yes	Opposed

	Gardner	Road	Bay	9082				life within Otago Harbour. Also concerned with pollutants, noise as a major disruption to the community and dumping of rock will destroy all life that has inhabited current reclamation.			
53	P J Sutherland	128 Scroggs Hill Road	RD 1	Dunedin 9076			9076	Supports for economic growth and upgrade to wharf for fishing.	13/08/2010	No	Support
54	M C Parry	70 Kaikorai Valley Road	Dunedin 9010				9010	No comments given	13/08/2010	No	Support
55	M A Jenks	26 Milton Road	Mt Eden	Auckland 1024			1024	Concerns with depositing of dredge from deepening channel and surfing at Aramoana, Murdering Bay and Karitane.	13/08/2010	Yes	Opposed
56	G E Skinner	675 West Coast Road	RD 1	Paparua	Christchurch 7676		7676	Concerned with damage to health of paua population and food source of the paua and loss of fishing through increased turbidity from suspended sediment.	13/08/2010	No	Opposed
57	D Gibbs	President Aramoana League	15 Muri Street	Aramoana	Port Chalmers 9082		9082	Concerns with silting caused by dredging as could effect ecosystem in Aramoana saltmarsh, consideration given to Long Mack Wall as dredging to deepen and maintain channel will take place alongside this groyne, concerns with existing Spit Wharf and deposited dredge material over prolonged period. Also concerns with surfing as wave formation could change.	13/08/2010	Yes	Neutral
58	B Harrison	56 Mihiwaka Station Road	RD 1	Port Chalmers	Dunedin 9081		9081	Concerns with surfing on the coast of Aramoana to Karitane as surfing is world-class.	13/08/2010	Yes	Opposed
59	A Heineman	90 Borlases Road	Sawyers Bay	Dunedin 9023			9023	Concerned with the effect on local fisheries.	13/08/2010	No	Opposed
60	G S Heineman	13A Burns Street	Port Chalmers	Dunedin 9023			9023	Concerned as the dumping of dredging will damage trawl grounds, crayfish migratory route & damage to perilous settlement.	13/08/2010	No	Opposed
61	R Richards	77 Turnbull Street	Brockville	Dunedin 9011			9011	Oppose to deepen, widen and maintain lower harbour channel, the	13/08/2010	Yes	Opposed

								swinging area and Port Chalmers berths to allow larger ships in to Port Chalmers and dispose of dredge spoil to sea			
62	R D Hemi	107 Kenmure Road	Belleknoves	Dunedin 9011			9011	Does not oppose the dredging but has concerns with the potential effects on the northern beaches.	13/08/2010	No	Neutral
63	T Brough	327 Rattray Street	Dunedin					Concerned with the dredging and disposal of sediment particularly at AO site and the possible effects.	13/08/2010	No	Opposed
64	R K James	42 Cambria Place	Dunedin 9016				9016	Oppose to AO dumping site and partially oppose the dredging of the harbour.	13/08/2010	Yes	Opposed
65	M F Barker	C/- Department of Marine Science	P O Box 56	Dunedin 9016			9016	Concerns with the release of large amounts of fine sediments into the harbour from dredging operations	13/08/2010	Yes	Opposed
66	J Hayhurst	34 Grey Street	Port Chalmers 9023				9023	Not completely opposed but wants to ensure works carried out are done in an environmentally responsible manner and will protect the harbour mouth and surrounding beaches from degradation.	13/08/2010	Yes	Support With Conditions
67	M McFarlane	P O Box 54	Port Chalmers	Dunedin 9050			9050	Concerns with the noise created on new multi purpose wharf by Port operations as will effect the Careys Bay Community and insufficient wheel chair access on wharf.	13/08/2010	No	Neutral
68	B Mullane	36 Bernera Street	Waikouaiti	Dunedin 9440			9440	Concerned with the effect on local fisheries.	13/08/2010	Yes	Opposed
69	M J T Linzey	14 Harrington Street	Port Chalmers	Dunedin				Concerned with the effect on marine life and increased noise levels.	13/08/2010	No	Opposed
70	M Trewern	4 Gannet Lane	St Leonards	Dunedin 9022			9022	Concerned with the destructive impact on the sea bed and threat the fisheries.	13/08/2010	No	Opposed
71	T Taiaroa	7 Tamatea Road	Otakou	R D 2	Dunedin 9077		9077	Concerned with effect on commercial fishing	13/08/2010	Yes	Opposed
72	G N Morris	8 Dalry Street	Mornington	Dunedin 9011			9011	Concerned with destructive impact on the sea bed, threat the fisheries and	13/08/2010	No	Opposed

								marine echo systems.			
73	L A Rust	10 Kahika Street	Aramoana	Dunedin 9082			9082	Concerns with the potential environmental impacts and impact on the world class surfing and water recreation locations.	13/08/2010	Yes	Opposed
74	D Westcot	9 Henry Street	Careys Bay	Dunedin 9023			9023	Concerned with the impact on Careys Bay amenities, noise, light and visual. Also concerned with the impact on world class surf break resource in Blueskin Bay.	13/08/2010	Yes	Opposed
75	T Pairman	16 Laing Street	Port Chalmers	Dunedin 9023			9023	Concerns with the odour from the dredging in the harbour and the timing of when these consents will be exercised.	13/08/2010	Yes	Opposed
76	G Robinson	Rapid 1899	Herbert-Hampden Road	11 0 RD	Oamaru		9495	Concerned with the negative impact on the sea bed and the threat to fisheries.	13/08/2010	No	Opposed
77	W D Brown	417 Aramoana Road	R D 2	Port Chalmers 9082			9082	Concerns with the Fish and shellfish resources within Otago Harbour, disposal of dredged material at South spit Beach, disposal of offshore AO disposal site and reconstruction of long Mac Breakwater, Groynes and Pilot Wharf	13/08/2010	No	Neutral
78	B Smith	15 Burns Street	Port Chalmers	Dunedin				Concerned with the severe impact on the wildlife, shape of the harbour and effect on tourism in the area.	13/08/2010	No	Opposed
79	J M Kidston	19 Slant Street	Careys Bay	Dunedin 9023			9023	Concerned as to the effect on the marine environment and local community.	13/08/2010	Yes	Opposed
80	B Stuart-Menteath	192 Doctors Point Road	R D 2	Waitati 9085			9085	Concerned with the effects on marine habitat and endangered wildlife.	13/08/2010	Yes	Opposed
81	P H Shanks	403 Achilles Avenue	Whangamata					Concerned with the effects on suffers, shell fish and protected species habitat.	13/08/2010	Yes	Opposed
82	A Woolley	36 Bellevue Place	Port Chalmers	Dunedin 9023			9023	Concerned with the affect on the quality of the world class waves on the north coast.	13/08/2010	No	Opposed
83	F Griffin	16 Bernicia Street	Port Chalmers	Dunedin 9023			9023	Concerned that the proposed dump site will have irreversible effects on	13/08/2010	No	Opposed

			s					the immediate environment.			
84	J Ross	6 Mclachlan Street	Waitati	R D 2	Otago 9085		9085	Concerned with disposal sites and suspended sediment and is not reassured by the studies regarding the environmental impacts of the dredging and disposal of dredge material.	13/08/2010	No	Opposed
85	N J Cullen	c/- Department of Geography	University of Otago	P O Box 56	Dunedin 9054		9054	Concerned with disposal sites and suspended sediment and wants research on what the expected impacts will be on the coastal environment in this region.	13/08/2010	No	Opposed
86	K Varian	33 Williams Street	Careys Bay	Port Chalmers 9023			9023	Concerned proposals will have negative effects on submitter's home at Careys Bay and will specify these effects at the Hearing.	13/08/2010	Yes	Opposed
87	E A Whitaker	126a Cannington Road	Maori Hill	Dunedin 1011			1011	Concerned about effects on surfing in the area.	13/08/2010	Yes	Opposed
88	T F Wallis	56 Mihiwaka Station Road	Purakanui	R D 1	Port Chalmers			Concerned with the effect on surfing in the area.	13/08/2010	Yes	Opposed
89	D S Reid	3 Slant Street	Careys Bay	Dunedin				Concerned with the increased noise levels and the lighting from cargo operations.	13/08/2010	Yes	Opposed
90	D N Humphrey	15 Eagle Street	Burkes	Dunedin				Supports for the economic value to businesses in Otago/Southland, larger ships are more cost effective, stability of labour force and ongoing jobs and minimal, if any, damage to the existing environment. Deepening the harbour and extending the wharf will position Port Chalmers as a viable alternative for larger ship calls and protects its role as the South Island export hub port. Benefits far outweigh any damage or harm to the environment.	05/08/2010	Yes	Support
91	D C Reid	6 Lewis Street	Deborah Bay	Port Chalmers			9082	Concerns with the disturbance to the amenity of Otago Harbour and Deborah Bay as glare from Port operational lights and noise.	13/08/2010	Yes	Opposed

92	C J Pile	7 Moeraki Boulder Road	Moeraki	RD 2	Palmerston			Concerned with sediment and plume that is put in Southern current as effect fishing grounds and have a negative effect on native environment.	12/08/2010	No	Opposed
93	Prof A F Mark	Botany Department	P O Box 56	Dunedin 9054			9054	Accepts that the proposed deepening is a necessary part of Port Otago's forward planning but is deeply concerned with proposed monitoring i.e. statements of acceptable thresholds and actions if thresholds exceeded. The most appropriate dredging equipment and methods should be employed to minimise the release of suspended sediments. There should be restrictions on dredging in the vicinity of the Aramoana Saltmarsh Ecological Area between mid September and late April.	12/08/2010	Yes	Neutral
94	A M Parsons	22 Shandon Street	Roseneath	Dunedin				Concerned with damage to the environment.	13/08/2010	Yes	Opposed
95	I Farquhar	R D 2	Dunedin					The ability to receive larger ships is necessary for the continued efficiency and viability of export companies in southern New Zealand. It is absolutely vital containers not be aggregated for shipment any further north than Port Chalmers.	10/08/2010	Yes	Support
96	C A Landis	284 Coast Road	R D 1	Waikouaiti			9471	Supports with conditions as further consideration given to re-distribution of sediment dumping and monitoring of the effects of sediment.	13/08/2010	Yes	Support
97	A J Middleditch	28 Hall Street	Sawyers Bay	Dunedin				Supports the application as ports are vital to society. Otherwise would result in job losses, increased costs to importers & exporters, increased costs to society of goods, population loss & waste off existing infrastructure.	12/08/2010	Yes	Support
98	S De Graaf	36 Sutcliffe Street	St Clair	Dunedin				Concerned with the effect on the many surf breaks in the area, especially Aramoana.	13/08/2010	No	Opposed

99	T Atkinson	CMB 20	Warrington	Otago				Concerned with the negative effect on wildlife habitats, economic rational of the project	13/08/2010	Yes	Opposed
100	F Butcher	PO Box 5877	Dunedin					Concerned with extensive disruption to ecosystem and sand plume that will impact negatively on coastal dunes.	15/07/2010	Yes	Opposed
101	J L Neilson	277 Ravensbourne Road	Ravensbourne	Dunedin 9022			9022	If Port Otago cannot provide deeper berths then ships will go elsewhere. A good shipping service is essential to avoid high shipping costs. Submission contains examples of screening to prevent sediment drift. Submitter has undertaken a thesis researching sediments in the upper 1 metre layer of Otago Harbour and his full submission details results. Sediment dumping in the Southland Current should quickly disperse and dilute and disperse.	12/08/2010	Yes	Support
102	Save The Otago Peninsula Inc Soc	PO Box 23	Portobello	Dunedin 9048			9048	Opposes the dredging, deepening and widening of the existing channel and extending and deepening the swing area around Port Chalmers Wharves.	13/08/2010	Yes	Opposed
103	Otago Chamber of Commerce	Chief Executive	PO Box 5713	Dunedin 9058			9058	Supports the applications due to the importance Port Otago has on the economic well-being of Dunedin and the hinterland of Otago and Southland.	12/08/2010	Yes	Support
104	Otago Southland Employers Association	PO Box 473	Dunedin					Crucial for Port Otago to expand its facilities at Port Chalmers so it can remain an export 'hub" for the South Island. This has a significant positive impact on supply chain efficiency for exporters from South Canterbury to Southland. If larger ships cannot come to the port, exporters will send their cargo elsewhere, adding extra costs. Concerned with current congestion at current multi-purpose wharf. Any effects to Otago harbour will be short term and no more than	05/08/2010	No	Support

								minor.			
105	Karitane Fishermen's Association Incorp	PO Box 58	Palmerston 9061				9061	Concerned activities will have a destructive effect on the environment, will be a threat to fisheries and have negative impacts on local fishery and tourism economies. The activities will have negative impacts on cultural health, and lack rigorous science and modelling and consultation in northern coastal communities. The activities give no attention to real alternatives and give no economic ju	12/08/2010	No	Opposed
106	South Coast Board Riders Assoc Inc	111A Cliffs Road	St Clair	Dunedin				Opposed to the dumping of the spoils at the AO site and increased dumping of spoil material at Heyward Point and Spit Beach	13/08/2010	Yes	Opposed
107	Monarch Wildlife Cruises Limited	PO Box 383	Dunedin 9054				9054	Considers the works vital for Port Otago, Dunedin and Otago to have a profitable and viable port facility. Dredging work will improve the amenity values of the harbour. Believes ORC has a legal responsibility to carry out such work. Wants a condition requiring POL to provide access to areas within the Harbour for a 2/3 metre draft vessel within 5 years.	12/07/2010	Yes	Support With Conditions
108	River-Estuary Care (Waikouaiti-Karitane) Incorp	C/o Karitane General Store	Karitane 9471				9471	Concerned that: dumping will threaten habitats and lifecycles of flora and fauna in the Waikouaiti River Estuary; there have been inadequate modelling of effects of dumping on northern aquatic communities; there will be detrimental effects on ecosystems, fisheries and fish nursery habitats north of the marine dump site and there is the potential to cause build up of sediments in the Waikouaiti	12/08/2010	No	Opposed
109	Otago Peninsula Community Board	C/- I.M Scurr (Chairperson)	829 Highcliff Road	Dunedin				Support application but has concerns with particulate dispersal and bywash disturbance in harbour that may cause harm to ecosystems and	13/08/2010	No	Support

								aquatic life.			
110	L R Simon and P B Simon	160 Brighton Scroggs Hill Road	Brighton	Dunedin 9035			9035	Concerned with the adverse effect activities will have on marine animals, plants, paua, koura and kelp. Also concerned with potential pollution from oil spills, and with the effect of underwater noise on fish, mammals and birds in the area.	04/08/2010	Yes	Opposed
111	Dr PE Walker and JE Aimers	27 Coombe Hay Terrace	Careys Bay	Port Chalmers 9023			9023	Concerned with the negative affect (sic) of dredging (including disposal of dredged material) and blasting, for the purpose of deepening the harbour channel, on the ecology of the harbour and local environs including bird habitats.	20/07/2010	No	Opposed
112	Jackson Bay Fishing Limited	C/o Ayson Coll	1 Wood Street	Kaka Point	Balclutha			Concerned with the dumping of dredged material on or near fishing grounds, particularly where it could potentially be washed or drift onto rocks which threatens paua habitat.	03/08/2010	No	Opposed
113	Trustees of the Tide-Song Family Trust	8 Edgewater Place	R D 3	Blenheim				Concerned that the activities could effect paua beds.	04/08/2010	No	Opposed
114	G E Burns, Harington Point Community Society	14 Easter Crescent	Kew	Dunedin			9012	The Society believes the proposal has been thoroughly investigated and researched, and Port Otago Limited has addressed the Society's concerns through the Project Consultation Group organised by POL..	06/08/2010	No	Support
115	B H Knight and S Knight	13A MacKenzie Street	Geraldine 7930				7930	No comments.	06/08/2010	No	Opposed
116	Cruise New Zealand Incorporated	c/- Craig Harris	P O Box 3	Auckland 1140			1140	Important for the cruise industry that Port Chalmers is able to accommodate the growth in cruise ship activity. Proposal will avoid clashes with berthing by cruise ships and container ships, and keep tourist and industry separate between the inner wharf and outer multi-purpose wharf. Deepening and widening the	09/08/2010	No	Support

								channel will assist navigation al safety and bring economic benefits to Dunedin and Otago.			
117	Dr S Rust and Y Yanakopulos	6702 State Highway 12	RD 3	Kaikohe	Northland 0473		0473	Concerned that the increased discharge of dredge spoil with adversely affect the harbour and offshore ecosystems. Construction and maintenance work will damage the local environment, disturb wildliffe and disrupt residents with the loss of amenities, tourism disturbance and fall in land values.	09/08/2010	No	Opposed
118	Hardy Street Enterprises Limited	P O Box 15	Bluff					Same submission as Paul H Young's.	09/08/2010	No	Opposed
119	Joan Fishing Co Limited	872 Harington Point Rd	Otakou	R D 2	Dunedin 9077		9077	Not opposed to widening of channel. Concerned specifically with disposal site A0 as it is the submitter's trawl grounds and is a known breeding area for english sole and a feeding ground for elephannt fish. Concerned with loss of income due to sedimentation and displacement of target species. Wants continuous monitoring at site and compensation if grounds can't be fished. Also concerned that the channel to Otakou wharf may become inaccessible.	09/08/2010	Yes	Neutral
120	R D Blakeley and P C Adams	68 Doon Street	Waverley	Dunedin 9013			9013	Submission made on behalf of Maritime Union of NZ and Rail and Maritime Transport Union. If the position is to be maintained as a premier port and key link in NZ's international supply chain, the port must be able to handle larger ships. If not there would be implications for job numbers and an economic impact on the port. Any effects of deepening the channel will be minor and short lived. B	10/08/2010	No	Support
121	Tania Fishing Co Ltd and Karitane	140 Coast Road	Karitane 9440				9440	Concerned activities will have a destructive effect on the environment, will be a threat to fisheries and have	11/08/2010	Yes	Opposed

	Charters Ltd							negative impacts on local fishery and tourism economies. The activities will have negative impacts on cultural health, and lack rigorous science and modelling and consultation in northern coastal communities. The activities give no attention to real alternatives and give no economic justification and has potential negative impacts on marine food webs.			
122	J R Harrison and I J Harrison	'Pinaki'	803 Greta Road	RD 1	R D	Greta Valley 7387	7387	Concerned that dumping of dredging material off Taiaroa Heads will affect paua beds or the adjoining coastline by modifying paua habitat and affecting water clarity making diving difficult.	11/08/2010	No	Opposed
123	Hamburg Sud New Zealand Limited	P O Box 5818	Dunedin					Consider Port Chalmers to be a vital part of their international network. Because of the value of cargo produced and future growth projections it is important the port can handle the larger ships. TThere is a corollary between a port being able to handle larger ships and increased economic activity in the region.	12/08/2010	Yes	Support
124	Ministry of Fisheries	Private Bag 1926	Dunedin 9054				9054	Consideration of the impacts on fisheries, fisheries habitat and fisheries values. Also consideration of the best length of time within which dredging should be completed, Discharging of decant watter to depth and suitable monitoring of impacts.	12/08/2010	Yes	Neutral
125	P A Murphy S D Clarkson	16 Henry Street	Careys Bay	Dunedin 9023			9023	Concerned that want to moor container ships at Boiler Point as noise generated by activities as impinges on lives of those in Carey Bay.	13/08/2010	Yes	Opposed
126	Otago Rock Lobster Industry Assoc. Inc.	23 Erin Street	Roslyn	Dunedin 9010			9010	Supports but requests that consents are conditioned to ensure the dumping of fine silts in AO doesnt occur during weather conditiosn that drive the spoil plume into inshore	13/08/2010	Yes	Support

								areas and no fine silts deposited in existing consented dump areas.			
127	Bay Chandlery Limited	P O Box 2	Port Chalmers 9050				9050	Concerns with dumping of dredging materials as have adverse effects on business of commercial fishing supply shop as will be directly affected.	13/08/2010	No	Opposed
128	I Stephenson C Adams	196 Blueskin Road	RD 1	Port Chalmers 9081			9081	Concerns with the adverse effects on health and wellbeing, dredging and disposal operations, noise and investigation into berthing arrangements for ships.	13/08/2010	Yes	Opposed
129	G V Kerr V M Kerr	192 Apes Road	RD 1	Waikouaiti 9471			9471	Object to application as the dredge material sourced from channel does not address effects of dumping dredge spoil to coastal environment. The AO Site has been adequately investigated or modelled and monitoring proposal incomplete.	13/08/2010	Yes	Opposed
130	L J Smith and E L Sherwood	27 Patmos Avenue	Woodhaugh	Dunedin 9010			9010	Concerns with the deepening, widening and maintaining the lower harbour channel, swinging area and Port Chalmers berths for larger Ships to Port Chalmers and the disposing of dredge spoil to sea.	13/08/2010	Yes	Opposed
131	Aurora Seafood Enterprises Limited	21 Magnetic Street	Port Chalmers	Dunedin 9023			9023	Concerned with the dumping of material over an area of importance to commercial trawling by local fishing boats, especially the sole and elephant fishery; and the detrimental effects to marine habitats from suspended fine materials contained in dredged materials, e.g. water turbidity and blanket effect on kelp beds. Economic assessment fails to assess the economic impacts of the proposal of com	13/08/2010	No	Opposed
132	Argo Fishing Company Limited	261 Upper Junction Road	Sawyers Bay	Dunedin				Concerned with destructive impacts on the seabed, that it will be a threat to the fisheries and marine environment and have a negative impact on marine food webs; and the proposal lacks rigorous science and modelling, and gives no attention to	13/08/2010	Yes	Opposed

								alternatives.			
133	Dr K Fisher and Dr C Davidson	26 District Road	Roseneath	Dunedin 9023			9023	Concerned with disposal sites and suspended sediment and is not reassured by the studies regarding the environmental impacts of the dredging and disposal of dredge material. The proposal risks despoiling the pristine Blueskin bay coastline. Concerned with noise from dredging and from the Port.	13/08/2010	No	Opposed
134	St Martin Island Community Incorporated	P O Box 5478	Dunedin					Concerned that the predicted settling of silt in the vicinity of Quarantine Island/Kamau Taurua will have detrimental effects on the marine ecology of the area, and impact on the community's activities (being navigable boat mooring and berthing, water clarity, eelgrass beds, shallowing and silting adjacent to rocky habitat, diminishing productivity of algal meadows and filter feeders being affected)	12/08/2010	Yes	Opposed
135	Southern Clams Limited	PO Box 483	Dunedin 9054				9054	Concerns with proposed channel dredging as environmental effects will have significant adverse impacts on local marine habitats and on Southern Clams Limited research project into sustainable harvesting of littleneck clams.	12/08/2010	Yes	Opposed
136	Silver Fern Farms Limited	PO Box 941	Dunedin					Bigger vessels will provide significant savings to exporters and to remain globally competitive, if SFFL had to shift cargo to another port it would shorten the shelf life, and value, of refrigerated cargo. The scientific research undertaken indicates environmental effects will be no more than minor and habitats for birds, fish and shell fish will be largely unaffected. The impact on Otago Harb	05/08/2010	No	Support
137	M M Cowell	P O Box 6003	Dunedin 9059				9059	Concerned that technical assessment doesn't recognise cumulative effects,	13/08/2010	No	Opposed

								the assessment of disposal alternatives and the proposals for monitoring are inadequate.			
138	J L Grainger	33 Norman Street	Andersons Bay	Dunedin			9013	Essential that the multipurpose wharf be extended to meet the requirements of the new generation of containers ships.	28/06/2010	Yes	Support
139	Otago Yacht Club Incorporated	PO Box 5161	Dunedin				9058	Supports the applications being granted as it is essential for the Port to cater for larger ships. It is in Otago's interest both environmentally and financially.	05/07/2010	No	Support
140	Careys Bay Association Inc	c/- 196 Blueskin Road	R D 1	Port Chalmers 9018			9018	Concerned with: noise, no alternative berthing arrangements have been considered, protection of the special character of Careys Bay, visual amenity, light spill/pollution, airborne pollution, increased road and rail traffic, effects on wildlife in Careys Bay, increased transport vehicle flows, loss of property values, the dredging and disposal operations haven't assessed the potential effects and the economic impact report overstates the potential benefits.	13/08/2010	Yes	Opposed
141	New Zealand Marine Sciences Society Inc	c/- Assoc Prof. Colin L McLay	School of Biological Sciences	University of Canterbury	Private Bag 4800	Christchurch		Concerned that the AEE doesn't acknowledge the existence of the London Protocol re dredge spoil assessment; disposal grounds are dispersive; the hydrodynamic modelling is unable to adequately account for particles and re-suspension events; there is insufficient information about contaminants in harbour sediments; little consideration has been given to effects on higher trophic level species, insufficient information re effects on Blueskin Bay and impacts and sedimentation on flora and fauna in the harbour and impacts on teaching and research by University of Otago.	13/08/2010	Yes	Opposed

142	Surfing Taranaki Inc.	P O Box 3364	New Plymouth 4341				4341	Firm independent monitoring provisions needed to measure the effects of the increased dumping on surf breaks	13/08/2010	No	Support
143	R Egan	32 Bath Street	Brighton	Dunedin				Concerned with dumping of dredge soil at Aramoana and the effect on the quality and location of the wave at Aramoana and its power and formation, including the recreational value of surfing, cultural impacts and spiritual values.	13/08/2010	No	Neutral
144	C Ellis	12A Shandon Road	Roseneath	Dunedin			9023	Concerned with impact on commercial fishing trawl grounds, contaminated dredge materials, and capital versus maintenance dredging and dumping. Spoil should be placed south of Taiaroa Heads.	13/08/2010	No	Opposed
145	Macandrew Bay Boating Club Inc.	c/- R Buxton	35 Marine Parade	Macandrew Bay	Dunedin 9014		9014	Supports in principle but concerned with ongoing effects of dredging and sedimentation in Macandrew Bay. Suggests measures to prevent sedimentation.	13/08/2010	Yes	Support With Conditions
146	J Upton	c/- P O Waitati	Waitati	Otago			9085	Concerned that not enough rigorous research has been done re the dispersal of spoil from the disposal sites.	13/10/2010	No	Opposed
147	R Reeve	P O Box 90	Warrington	Dunedin				There is no strong economic ground to argue for the necessity of Port Otago expanding. POL have failed to investigate all adverse effects of the proposal.	13/08/2010	Yes	Opposed
148	Dunedin City Council	PO Box 5045	Dunedin				9058	Proposal will contribute to economic wellbeing of Dunedin and surrounding region but concerned with cross boundary effects including noise, inundation of roads and reserves on the Peninsula and impact upon intertidal ecosystems	13/08/2010	Yes	Neutral
149	M A Marsich	P O Box 6103	Dunedin North	Dunedin			9059	Observation of the effects of sand and sediment deposition will need to be closely monitored. The AEE gives no certainty that marine life,	13/08/2010	Yes	Neutral

								especially paua, will not be affected. No detailed monitoring plan. Wants alternative dumping site to AO			
150	B F Smith	26 Aramoana Road	Careys Bay	Dunedin			9082	Concerned with: the stability of Rocky Point after blasting, the range of negative impacts to the harbour and Careys Bay, decrease in land values, and the history of disregard for residents and the rules they operate under.	13/08/2010	Yes	Opposed
151	A Todd	Hercules Flat	Roxburgh East	R D 2	Central Otago		9572	Concerned that evidence of detrimental impacts of channel deepening needs to be scoped. Modelling from ORC testing of underground water at Aramoana needs modelled against deeper channel and more pressure due to larger volumes of water entering and leaving Otago Harbour. Wants a significant bond on POL to compensate for any loss of amenity due to harbour reconstruction work.	13/08/2010	Yes	Opposed
152	Deborah Bay Residents Assoc Inc	c/- Marian Poole	RD	134 Aramoana Road	Deborah Bay	Port Chalmers	9082	Concerned with: negative effects from noise, lighting and visual pollution that haven't been investigated with peer review, erosion of rock sea walls; the safety of yachts moored at Deborah Bay and the 24 hour dredging. Concerned also that there was no consultation with Association in regard to the Noise Assessment Report.	13/08/2010	Yes	Opposed
153	East Otago Taipure Management Committee	Chairman Brendan R Flack	C/- Kati Huirapa Runaka	Post Office	Karitane		9471	Concerned that sediment will be deposited within the East Coast Taipure due to the groyne that operates in Blueskin Bay. This sediment has the potential to significantly affect values provided by marine habitats within and surrounding the Taipure.	13/08/2010	Yes	Opposed
154	B Ferguson	24 Lewis Street	Port Chalmers	R D 2	Dunedin		9082	Concerned with air pollution, noise, enjoyment of existing outdoor amenity values, light spill, visual pollution and	13/08/2010	Yes	Opposed

								negative effects on the harbour and surrounding coastal marine area.			
155	R Yates, J Yates and P Yates	829 Cumberland Street	North Dunedin	Dunedin				Concerned with the affect the sludge will have when dumped on AO site which is currently a cockle bed; and the movement of silt further north to Moeraki, that the information from POL may not be as peer reviewed as it should be re the behaviour of the gyro; and the fine suspended sediment will block the light to the sea floor and it will get into the shells of shell fish and ruin kelp forests.	13/08/2010	Yes	Opposed
156	L Blake	Warrington CMB	P O Box 7	Warrington	Dunedin		9541	Concerned for the adverse effects on the ecosystems around and within the dredging areas, the impacts on the salt marshes, and on marine life. Also concerned with affects on the surf breaks and wave quality and surrounding wild life, and the economic benefits surfing brings to Otago.	13/08/2010	Yes	Opposed
157	Surfbreak Protection Society Inc.	P O Box 20717	Glen Eden	Auckland			0641	Concerned with the potential effects of the growing, and movement, of the spoil mounds at Site AO, the quality of the surfable wave; sediment plumes and accumulation; and turbidity of the water environment, including the potential of contaminants affecting the health of recreational users.	13/08/2010	Yes	Neutral
158	Otago Conservation Board	c/- Mark A Clark	Board Support Officer	C/- Department of Conservatio	P O Box 5244	Dunedin	9058	Concerned that there is not enough information to show how potential adverse effects on marine organisms, sea birds and the Aramoana salt marsh can be avoided, remedied or mitigated to an adequate extent. Suggest consent conditions if applications granted.	13/08/2010	Yes	Opposed
159	N Parker	CMB 103	Warrington	Otago 9449			9449	Concerned that sediment disposal could alter the marine environment of Warrington (and other coast lines).	13/08/2010	No	Neutral

160	R Fairhurst	235A Stuart Street	Dunedin				9016	Concerned with the destruction of the sea floor within the harbour environment and also at dumping site AO; effects of reefs in the harbour and on local fish/bird/plant species. Also concerned with noise pollution.0.	13/08/2010	No	Opposed
161	R Rust and N Durrant	2 Braileys Track	Port Chalmers	Dunedin			9023	Concerned with the disposal of dredge spoil and that it should be moved to other parts of the coastline that are short of sand rather than dumped. Wants the results of outstanding investigation work on the long term sustainability of the three existing disposal sites made public.	13/08/2010	Yes	Opposed
162	L Mitchell	110B Bayview Road	St Kilda	Dunedin			9012	Is against the dredging to the extent it has been proposed and the dumping of silt as it will have a devastating effect on the life of the harbour and surrounding coastal areas.	13/08/2010	Yes	Opposed
163	F McLachlan	17 Silverton Street	Andersons Bay	Dunedin			9013	Concerned with dredging and disposal of silt and rock and that it will harm local species and the potential effects to 'whanau ora'. The potential devastation of the environment and the potential social costs supersede and revenue or social benefits the community might gain from allowing bigger ships to berth.	13/08/2010	Yes	Opposed
164	E M Vanderburg	58 Bernera Street	Karitane				9440	Concerned with effects from dredging on local coastal environments and on the wave quality for surfing	13/08/2010	No	Opposed
165	Marine Science Division - University of Otago	P O Box 56	Dunedin				9016	Concerned with increase in suspended sediments in the harbour and effect on the maintenance and operation of the submitters filtration system. The sediments are likely to negatively affect the harbour fauna. The monitoring programme lacks detail.	13/08/2010	Yes	Opposed
166	E Buky	6 Matariki Street	Broad Bay	Dunedin			9014	Concerned that probability of extensive and lasting environmental harm is high and damaging the habitat and disrupting the food supply	13/08/2010	Yes	Opposed

								is too big a risk to take.			
167	S T Jackson	17 Silverton Street	Andersons Bay	Dunedin			9013	Concerned with destruction of seafloor habitat, that insufficient modelling and no baseline monitoring has been done on effects of dumping, noise levels, and that POL has not had sufficient public meetings. Wants a dumping site further out to sea and stock counts on local fish species.	13/08/2010	Yes	Opposed
168	G S Tait	PO Box 145	Waitati				9069	Believes the dredging may lead to ecological problems for a number of sensitive habitats in the harbour, and concerned with impacts of sediment and wants more research done to prove there will not be significant damage to creatures in the Blueskin Bay area.	13/08/2010	Yes	Opposed
169	K Williams	c/- Northside Boadriders	76 Modena Place	R D 2	Kaiapoi		7692	Concerned that the proposed increase in dumping of dredge material will have a negative impact on the quality of surf in the region.	13/08/2010	No	Opposed
170	Trustees of the Yellow-Eyed Penguin Trust	Moray Place	P O Box 5409	Dunedin			9058	Sediment deposition on the scale proposed is likely to adversely affect the ecological communities of both the harbour and Blueskin Bay/Warrington/Karitane areas. The proposal does not recognise the importance of nature based tourism and the potential adverse affect of the proposed dredging on the base resource of the Otago Peninsula visitor industry.	13/08/2010	Yes	Opposed
171	Pauamac 5 Incorporated	Private Bag 90106	Invercargill				9840	Concerned that commercial paua fishing interests are not compromised by environmental degradation or pollution which might be caused by the dumping proposal. Possible effects being damage to paua due to smothering, loss of fishing opportunities through increased turbidity and the impact on productivity of the paua food source provided by Bladder kelp.	13/08/2010	No	Opposed

172	Dr G B Hall and M R Hall	21 Slant Street	Careys Bay	Dunedin			9023	Concerned with noise-related aspects of the POL applications and the noise assessment report; the impacts on the marine, terrestrial and human environments of the applications, detrimental impacts of container stacking on the visual amenity of Careys Bay residents.	13/08/2010	Yes	Opposed
173	Royal Forest & Bird Protection Society	Janet Ledingham, Chairperson	P O Box 5793	Moray Place	Dunedin		9058	Concerned with effects of sediment deposition on benthic communities, bird feeding (Including penguins) marine mammals; dredging noise and light effects on Taiaroa Head, disturbance of feeding birds on salt marsh and mud flat bird feeding areas, effects on the Aramoana Ecological Area and effects of dumping on marine mammals, bird feeding and on the ecology of the Blueskin Bay- Warrington Karitane areas.	12/08/2010	Yes	Opposed
174	Careys Bay Hotel (2008) Limited	c/- Joanna Kidston	17 MacAndrew Road	Careys Bay	Dunedin		9023	Concerned with noise increase as effects on business could be potentially damaging and have major effects on the well being and character of the Careys bay community	13/08/2010	Yes	Opposed
175	Stallard Law Limited	P O Box 946	Nelson				7040	Concerned that applicant fails to properly address the effects of the activity on: the offshore ecology of the area, including benthic communities; the spread of invasive and biofouling species and the effect on offshore and coastal birds. No consultation has been carried out in respect of impacts on fishing and fisheries resources and no research has been done on: the impact of the dredging, or commercial fisheries; the effects of tides; loss of fishing to fishers nor the social and cultural community wellbeing of the fishing community. The application fails to address mitigating adverse effects and is	13/08/2010	Yes	Opposed

								contrary to ss5, 6 and 7 of the RMA.			
176	A Sutherland	President	Big Rock Boardriders	73 Viscount Road	Waldronville	Dunedin	9018	Concerned with the effects of dredge spoil at Aramoana and the effect on the surfing wave, and also the sediment plume for the AO dump site.	13/08/2010	No	Neutral
177	H Saxton	c/- Tourism Dunedin	P O Box 1446	Dunedin				On behalf of Dunedin Tourism, supports proposal as it is important for the cruise industry and tourism that Port Chalmers can handle the growing number of ships calling there, and for passenger safety to be separated from the cargo operations, and also the significant economic impact of cruise ships to Dunedin.	13/08/2010	No	Support
178	B Curnow	c/- Aramoana Conservation Group	R D 2	Port Chalmers			9082	Concerned with the compromising of the Aramoana Ecological Area with deepening and widening of the channel and the shaving off of three metres of the Aramoana mud flats. Concerned with erosion and subsidence, monitoring of noise with regards to bird life in the area.	13/08/2010	Yes	Opposed
179	R Reeve	Friends of the Harbour (FROTH)	17 Silvertown Street	Andersons Bay	Dunedin		9013	Friends of the Harbour (FROTH) concerned with: lack of investigation into adverse effects, sediment movement, resuspension of sediment fines, incremental increase of Warrington beach, no alternatives to dumping sites, loss of benthic communities at site AO, rituals of species in AO, no confidence in sediment/bathymetric monitoring, lack of monitoring by ORC under s35(1) of the RMA, harbour disturbance and effects on food chain, increased turbidity, blasting of Acheron and Rocky Point depleting inner harbour rocky habitat, and future impacts of shipping bow waves and associated erosion.	12/08/2010	Yes	Opposed
180	J R Rust	2 Braileys Track	Careys Bay	Dunedin				Concerned with the effects on surfing wave conditions, including wave energy, refraction and direction.	13/08/2010	Yes	Opposed

								Wants spoil diverted to St Kilda beach where it would be an asset against the current erosion, or using the spoil rock and rip rap to create new surf spots. Also concerned with the adverse effects on the marine environment and character of the Otago Peninsula.			
181	G H Miller	8 Henry Street	Careys Bay	Dunedin			9082	Concerned with the potential negative effects of increased dredging and disposal on the harbour and surrounding coastal marine area have not been adequately investigated. Concerned also with noise, the enjoyment of existing outdoor amenity values and light spill and visual pollution.	13/08/2010	Yes	Opposed
182	B J Thomas	26 Aramoana Road	Rocky Point	R D 2	Port Chalmers		9082	Concerned with: the stability of land at Rocky Point; the blowing up of Rocky Point, Pulling point and Acheron Head is ecologically irresponsible and destroying kelp beds will have a trickle down effect on the harbours' food chain. The potential negative effects of increased dredging and disposal on the harbour and surrounding coastal marine area have not been adequately investigated. Concerned also with noise, the enjoyment of existing outdoor amenity values and light spill and visual pollution.	13/08/2010	Yes	Opposed
183	Brendan Flack	Rapid 1134 Coast Road	Karitane	Otago			9471	Concerned with sediment deposits within Kati Huirapa's takiwa and its ability to denigrate the mauri of Tangaroa by making reef systems uninhabitable by all forms of kaimoana. Also concerned with putting the spoil from dredging into an oceanic system that currently causes the accretion of the Warrington sand spit by up to 1.3 m a year. The additional spoil will have a devastating effect on the submitter's	13/08/2010	Yes	Opposed

								ability to manage the customary fishery in this area and on his rangatiriranga on the wahi tapu.			
184	C J Hilder	9 Slant Street	Careys Bay	Port Chalmers			9023	Concerned with adverse effects from noise.	13/08/2010	Yes	Opposed
185	A Hall	14 Paloona Street	Aramoana	Otago			9082	Concerned that the gryne will deposit silt, fines, and other particles along Blueskin Bay and further up the coast from site AO. Breeding habitats of fish and crays and bottom feeders will be affected and food chains interrupted. Commercial fishing interests and breeding grounds will be disturbed by the dumping of contaminants and associated residue. Also concerned with the proposed 3 metres being taken from the edge of the salt marsh at Aramoana.	13/08/2010	Yes	Opposed
186	Director General, Department of Conservation	PO Box 5244	Dunedin				9058	Considers the information supplied with application is insufficient to enable Department of Conservation to assess all its effects. The application fails to promote sustainable management of natural and physical resources.	13/08/2010	Yes	Opposed
187	T N Neha	156 Corstorphine Road	St Clair	Dunedin			9012	Concerned with ability to gather seafood and the effects of the proposal on the coastal marine area. Concerned with restrictions of access for recreational use and gathering seafood.	13/08/2010	Yes	Opposed
188	W Bretton	CMB 137, Warrington	Warrington	Dunedin			9449	Concerned quality of information re deposition impacts and dispersal patterns is flawed and inadequate. Increased suspension of sediment could be damaging to health and survival of many coastal water species. Already damaged and fragile estuaries will potentially become even more severely degraded due to deposition of sand and especially silts.	13/08/2010	Yes	Opposed

189	M Guerra	327 Rattray Street	Dunedin				9016	Concerned with consequences for the ecosystems and benthic communities in the Harbour and at the disposal sites.	13/08/2010	No	Opposed
190	ISS-McKay Limited	P O Box 1372	Auckland				1140	Supports all applications as per Appendix A of Submission Form	17/08/2010	No	Support
191	K E Burke	32 Toroa Street	Wairakea	Whakatane			3120	Concerned that dumping mud on the Otago coast will kill shellfish.	16/08/2010	Yes	Opposed
192	D Karena-Holmes	15 Queen Street	Dunedin					Believes the consents should be declined because the natural world is being destroyed by this kind of development and the port should be downsized, not expanded.	16/08/2010	Yes	Opposed
193	G McGrath	161 Carroll Street	Dunedin				9016	Very little consideration has been given to potential impacts on marine mammals and seabirds. The hydrodynamic modelling does not account for silt/clay particles and re-suspension events. Information provided and investigations re contaminants in harbour sediments are highly inadequate. There is insufficient information re sediment spoil dispersion on coastal marine environments in wider Blueskin Bay area. Discusses importance of Otago Harbour and environs on Hector Dolphins and other marine mammals.	16/08/2010	No	Opposed
194	NZ Fed of Comm Fishermen (Inc) and Port Otago Fishermans Co-op	P O Box 946	Nelson				7040	Applications fail to address effects of activities on offshore ecology and offshore benthic communities, and the spread of invasive bio-fouling species, and effects on offshore and coastal birds and mammals. There has been no proper consultation on impacts on fishing, especially commercial fishermen, the fishing community at large, and the fish stocks, and on tidal movements and sand build up, nor the needs of future generations. The applications fail to deal with mitigating adverse effects and are contrary to Sections 5, 6 and	17/08/2010	Yes	Opposed

							7 of the RMA.			
195	J West	18A Rochester Street	Wilton	Wellington			6011 Only opposes applications re dredging. The scale is unprecedented and potential effects haven't been given careful consideration. Concerned with: the speed and scale of the activities, and that the proposal is hasty and very large, and for the viability of the ecosystems including the cockle beds off Otakou, and with suspended sediment.	17/08/2010	No	Opposed
