

Surface Water Takes in the Lindis Catchment (including the Tarras Creek catchment)

Primary allocation

Consent Number	Consent Type	Map Reference	Easting	Northing	Consent Status	Consent Holder	Purpose Activity	Usage Rate Type	Maximum Rate in litres per second	Max Yearly Quantity in m3	Type Of Allocation
2000.657	Surface Water Take Permit		1317355	5021083	Current	Bruce Duncan Stuart Jolly and Linda Marie Jolly	To take up to 72,000 litres per day at a maximum rate of 0.83 litres per second from an unnamed spring, Ardgour Station, Broad Gully, Cromwell for the purpose of domestic and stockwater supply.	Total Instantaneous Rate	0.83	0	Primary
2000.690	Surface Water Take Permit		1315755	5019181	Current	Bruce Duncan Stuart Jolly and Linda Marie Jolly	To take up to 72,000,000 litres per month at a maximum rate of up to 100,000 litres per hour of water from Shepherds Creek for irrigation, stockwater and domestic supply. The water is taken at two points of take being an open water race at the rate of 97,000 litres per hour and a 40mm pipeline at a rate of 3,000 litres per hour.	Total Instantaneous Rate	27.78	0	Primary
2001.544	Surface Water Take Permit		1320350	5029091	Current	Peter William Jolly	To take and use water as primary allocation from Lindis River for the purpose of irrigation. Location of activity: True right bank of the Lindis River, approximately 3 kilometres west of Tarras township, Central Otago.	Total Instantaneous Rate	138.8	768000	Primary
2001.809.V1	Surface Water Take Permit		1323951	5030895	Current	Lindis Irrigation Limited	To take and use up to 1,864,404 cubic metres per month at a maximum rate of 707.5 litres per second of water from the Lindis River at the Ardgour main race intake for the purpose of irrigation and stockwater supply. Location of Point of Take: At the Ardgour main race intake which is on the true left bank of the Lindis River at the upstream end of Archies Flat.	Total Instantaneous Rate	708	0	Primary
2001.810.V1	Surface Water Take Permit		1318341	5023921	Current	Lindis Irrigation Limited	To take and use up to 74,576 cubic metres per month at a maximum rate of 28.3 litres per second of water from Wainui Creek, during the winter months for the purpose of irrigation and stockwater supply. Location of Point of Take: From Wainui Creek, approximately 1.2 kilometres upstream of the Ardgour Road bridge across Wainui Creek.	Total Instantaneous Rate	28.3	0	Primary
2003.110	Surface Water Take Permit		1316547	5029689	Current	Lindis Irrigation Limited	To retake water that has been discharged into the Cluden Swamp from the Tarras Main Race for the purpose of irrigation. Location of consent activity: Cluden Swamp on the east side of Munro Lane, Tarras	Total Instantaneous Rate	555.5	0	Retake
96067.V2	Surface Water Take Permit		1322655	5026188	Current	Alastair Askin Rutherford and Suzanne Elizabeth Rutherford	Deemed permit to take up to 200,000 litres cubic metres per hour of water from Waiwera Creek for the purpose of irrigation for a term expiring 1 October 2021. Location of points of take: from Waiwera Creek at two points; one at 1.5km upstream and the other at 3.5km upstream of the confluence of Waiwera Creek and the Lindis River.	Total Instantaneous Rate	55.55	0	Primary
2003.251.V1	Surface Water Take Permit		1316547	5029689	Current	Cluden Station Limited	To take and use water for the purpose of irrigation. Location of consent activity: Unnamed tributary of the Clutha River known locally as Cluden Swamp, approximately 240 metres north east of the intersection of Munrose Lane and Church Lane, Tarras	Total Instantaneous Rate	22	0	Primary
2004.230.V1	Surface Water Take Permit		1319254	5023787	Current	Wainui Pastoral Limited	To take and use surface water as primary allocation for the purpose of communal domestic supply, stockwater, irrigation, frost fighting and water harvesting. Location of point of take: Wainui Creek, approximately 3.2 kilometres upstream of its confluence with the Lindis River, Lindis Valley,	Total Instantaneous Rate	46	418172	Primary

2007.496V1	Surface Water Take Permit	1322460	5018786	Current	Wainui Pastoral Limited	To take and use surface water as primary allocation for the purpose of communal domestic supply, stockwater, irrigation, frost fighting and water harvesting. Location of point of take: Dry Creek, approximately 10 kilometres upstream of its confluence with the Lindis River, Lindis Valley	Total Instantaneous Rate			Primary
2007.497.V1	Surface Water Take Permit	1317752	5024986	Current	Cloudy Peak Pastoral Limited	To take and use surface water as primary allocation for the purpose of communal domestic supply, stockwater, irrigation, frost fighting and water harvesting. Location of point of take: an unnamed tributary of the Lindis River, approximately 50 metres south of the Lindis River and adjacent to Ardgour Road, approximately 10 kilometres north east of the intersection of Ardgour Road and Thomson Gorge Road, Lindis Valley.	Total Instantaneous Rate	28	627259	Primary
2006.254.V1	Surface Water Take Permit	1316547	5029689	Current	Lindis Irrigation Limited	To retake augmentation water for the purpose of irrigation. Location of point of abstraction: Approximately 770 metres northeast of the intersection of Munroes Lane and Tarras-Cromwell Road (State Highway 8), Tarras.	Total Instantaneous Rate	14	0	Retake
2001.807.V2	Surface Water Take Permit	1324150	5032696	Current	Lindis Irrigation Limited	To take and use up to 3,355,927 cubic metres per month at a maximum rate of 1,274 litres per second (45 heads) of water from the Lindis River at the Tarras (main race) intake for the purpose of irrigation, stockwater supply and wine production, located at the true right bank of the Lindis River at a point approximately 150 metres upstream of the confluence of Cluden Stream and the Lindis River	Total Instantaneous Rate	1274	0	Primary
2008.361.V1	Surface Water Take Permit	1323645	5039701	Current	John Davis Lunn Davis	To take and use water as primary allocation from the Lindis River for the purpose of irrigation. Location of point of abstraction: True right bank of the Lindis River approximately 540 metres upstream from Elliotts Bridge, at the intersection of Timburn Road and Lindis Pass- Tarras Road (State Highway 8), Lindis Valley.	Total Instantaneous Rate	223.3	1906920	Primary
99062.V1	Surface Water Take Permit	1323545	5039400	Current	John Davis Lunn Davis	To take and use 172,800,000 litres per month at a maximum rate of 600,000 litres per hour from the Lindis River;for the purpose of irrigation.Location: Lindis River, adjacent to State Highway 8.	Total Instantaneous Rate			Primary
96637.V2	Surface Water Take Permit	1325742	5045806	Current	Geordie Hill Station Limited	Variation to consent 96637.V1 - To insert the condition that the total combined take from permits 96637 and 96638 is not to exceed 111.2 litres per second	Total Instantaneous Rate	55.5	0	Primary
96638.V2	Surface Water Take Permit	1324741	5045805	Current	Geordie Hill Station Limited	Variation to consent 96638.V1 - To insert the condition that the total combined take from permits 96637 and 96638 is not to exceed 111.2 litres per second	Total Instantaneous Rate	55.5	0	Primary
97059.V1	Surface Water Take Permit	1325947	5038902	Current	John Davis Lunn Davis	To take 142,240 litres per hour from the Tim Burn for the purpose of irrigating 40 hectares of pasture. Location of point of abstraction: True right bank of Tim Burn, approximately 2 kilometres upstream of the confluence with the Lindis River.	Total Instantaneous Rate	39.5	0	Primary
2009.300.V1	Surface Water Take Permit	1323745	5043502	Current	Nine Mile Pastoral Limited	To take and use water as primary allocation from the Lindis River for the purposes of irrigation and stock water. Location of points of abstraction: Location 1: Lindis River, approximately 70 metres downstream on the true right bank of the river from Elliotts Bridge, State Highway 8, Central Otago, and Location 2: Lindis River, Goodger Flat approximately 4.5 kilometres upstream on the true right bank of the river from Elliotts Bridge, State Highway 8, Central Otago	Total Instantaneous Rate	34	405000	Primary

WR1753CR.V1	Surface Water Take Permit	1314751	5023483	Current	John Charles Perriam	To take surface water from the Lindis River via the Beggs Stackpoole Race. Used in conjunction with WR7787/96Cr	Total Instantaneous Rate	67	0	Primary
WR7787/96CR.V1	Surface Water Take Permit	1315351	5023683	Current	John Charles Perriam	NOTE - The holders of this should also be the same holders for WR1753Cr as the Crown has deemed the water taken under the 2 mining privileges to be shared between the parties. Variation to shift points of take for one of the shareholders hasn't commenced as waiting for surrender of shares for Nine Mile Pastoral Limited see 2009.300 - To take up to 800,000 litres per hour from the Lindis River (Beggs Race)	Total Instantaneous Rate	33	0	Primary
3916	Surface Water Take Permit	1323245	5038600	Current	James Gordon Lucas, Mark James Cunningham Faulks and I & C Trust	To take 50,000 litres per hour from Eight Mile Creek. For the purpose of irrigation. Location: Eight Mile Creek, upstream of the confluence with the Lindis River, Lindis Valley	Total Instantaneous Rate	13.88	0	Primary
95633	Surface Water Take Permit	1321856	5022888	Current	Oak Tree Water Company Limited	***Can also be used for domestic use and watering stock - see Objective A231579*** To take 144,000,000 litres per month from Wainui Creek at a maximum rate of 200,000 litres per hour for the purpose of irrigation. Location of point of abstraction: Wainui Creek, Approximately 4.3 kilometres south east of Ruffell Road and Ardgour Road, Tarras	Total Instantaneous Rate	55.6	0	Primary
95928	Surface Water Take Permit	1322245	5037998	Current	James Gordon Lucas	A deemed permit to take 100,000 litres per hour from Nine Mile Creek for irrigation	Total Instantaneous Rate	28	0	Primary
96066	Surface Water Take Permit	1322752	5028693	Current	Alastair Askin Rutherford and Suzanne Elizabeth Rutherford	A Deemed permit to take 1,200,000 litres per hour from Lindis River, Ardgour Valley for the purpose of irrigation	Total Instantaneous Rate	333.33	0	Primary
96077.V1	Surface Water Take Permit	1336954	5037709	Current	John Davis Lunn Davis	Deemed permit to take 18,000,000 litres per month at a maximum rate of 300,000 litres per hour from Cluden Creek, approximately 15km upstream of the confluence with the Lindis River for the purpose of irrigating 20 hectares of pasture.	Total Instantaneous Rate	83.3	216000	Primary
96196	Surface Water Take Permit	1322636	5051007	Current	Russell Stewart Emmerson and Jannette Emmerson	A deemed permit to take up to 400,000 litres per hour of water from Station Creek, Lindis Pass for the purpose of irrigation and domestic and stock water	Total Instantaneous Rate	111.11	0	Primary
99021.V1	Surface Water Take Permit	1336954	5038408	Current	John Clement Anton Lucas	To take and use 198,000,000 litres per month at a maximum rate of 300,000 litres per hour from Cluden Creek; to discharge 198,000,000 litres per month at a maximum rate of 300,000 litres per hour to Coal Creek; to retake 198,000,000 litres per month at a maximum rate of 300,000 litres per hour from Coal Creek for the purpose of irrigating pasture. Location: Cluden Creek and Coal Creek, approximately 15 kilometres upstream of the confluence with the Lindis River.	Total Instantaneous Rate	83.3	0	Primary
99022	Surface Water Take Permit	NZMS 260 G40:335-011		Current	John Clement Anton Lucas	To take and use 259,200,000 litres per month at a maximum rate of 600,000 litres per hour from the Lindis River; for the purpose of irrigation Location: Lindis River, adjacent to State Highway 8.	Total Instantaneous Rate	166.66	0	Primary
99298	Surface Water Take Permit	1321137	5048805	Current	Russell Stewart Emmerson and Jannette Emmerson	Deemed permit to take up to 200,000 litres per hour from McKenzie Creek, Lindis Pass, Tarras for the purpose of irrigation and stockwater.	Total Instantaneous Rate	55.55	0	Primary

Supplementary allocation

Consent Number	Consent Type	Map Reference	Easting	Northing	Consent Status	Consent Holder	Purpose Activity	Usage Rate Type	Maximum Rate in litres per second	Max Yearly Quantity in m3	Type Of Allocation
2007.498.V1	Surface Water Take Permit		1322460	5018786	Current	Wainui Pastoral Limited	To take and use surface water as supplementary allocation for the purpose of communal domestic supply, stockwater, irrigation, frost fighting and water harvesting. Location of point of take: Dry Creek, approximately 10 kilometres upstream of its confluence with the Lindis River, Lindis Valley	Total Instantaneous Rate			Supplementary Block 1
RM13.243.01	Surface Water Take Permit		1317381	5035234	Current	D. P. Nyhon Holdings Limited	To take and use surface water as supplementary allocation from Deep Creek for the purpose of irrigation	Total Instantaneous Rate	45	506250	Supplementary Block 1
99328.V1	Surface Water Take Permit	NZMS 260 G40:335-011			Current	John Davis Lunn Davis	To take and use water as supplementary allocation from the Lindis River for the purpose of irrigation. Location of activity: Lindis River, adjacent to State Highway 8, approximately 700 metres upstream of Elliots Bridge and the turn off to Timburn Road, Tarras.	Total Instantaneous Rate	56	0	Supplementary Block 1
99329.V1	Surface Water Take Permit	NZMS 260 G40:335-011			Current	John Clement Anton Lucas and Elizabeth Ann Lucas	To take and use water as supplementary allocation from the Lindis River for the purpose of irrigation. Location of activity: Lindis River, adjacent to State Highway 8, approximately 700 metres upstream of Elliots Bridge and the turn off to Timburn Road, Tarras.	Total Instantaneous Rate	56	0	Supplementary Block 1

Note:

RM13.243.01; 2003.251.v1; 2003.110 and 2006.254.v1 are located in the Tarras Creek catchment
2003.110 and 2006.254.v1 are retakes
