My/Our submission is *(include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views)*.

We oppose the application in relation to dust, noise, water quality, rehabilitation and roading. We have ongoing concerns about the past and present lack of monitoring and the failure of OGL to meet past resource consent conditions. There is a lack of accountability and this is having a negative effect on the Macraes Community.

We oppose the application in relation to putting the land in covenants managed by the Department of Conservation leading to the loss of productive farmland and farming infrastructure.

We have concerns that a rock stack will be located over farm infrastructure. We would like to see this infrastructure reinstated to a suitable location in a timely manner to avoid interference with farming operations. We oppose land being taken out of farmland and being put in covenants for a large number of reasons including the lack of past and present pest

I/We seek the following decision from the consent authority (*give precise details, including the general nature of any conditions sought*)

Land is not put in to covenant.

The councils are held accountable for insufficient monitoring of Resource Consent Conditions.

Rehabilitation is done to a more satisfactory level.

Transparency around bonding conditions to future proof the community should OGL default on their responsibilities.

Transparency around tailings and rock stack storage facilities. We would like to see past pits filled before new dams and
