

# Southern Alps gecko

*Woodworthia* "Southern Alps"

## Conservation status

Regional | At Risk: Declining  
National | At Risk: Declining

## Main threats

Habitat change  
(e.g. land development  
and fire)

Introduced predators  
(e.g. rodents, stoats,  
ferrets, and cats)

Identify me by my...

Grey, brown,  
olive or pinkish upper  
surfaces, often with  
bands or blotches

## I inhabit...

Rocky areas  
(e.g. shrubland, boulderfield,  
river terraces and scree)  
and occasionally trees.

## I eat...

Mostly invertebrates,  
including insects and spiders  
Possibly flower nectar and  
native fruits when available

## I look similar to...\*

Kōrero gecko

Kawarau gecko

\*These species can look so alike they are very difficult to tell apart without genetic data.
